

# U.S. ANTIBIOTIC AWARENESS WEEK

#USAAW24

## Monday, November 18: Fighting Antimicrobial Resistance Takes All of Us

Have you read the November issue of the [Vitamin IPC Bulletin](#) yet? If not, check out the Cheers for Peers section to learn about some great work being done in the state.

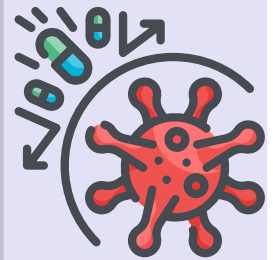

## Tuesday, November 19: The Global Threat of Antimicrobial Resistance

Attend one of these webinars:

- The Race Against Antimicrobial Resistance in Neonates: Insights on Data, Prevention, and Stewardship from 7:30 - 9:00 AM | [Webinar Registration Link](#)
- (ASHP Members Only) Penicillin Allergy De-labeling as a Tool for Inpatient Antimicrobial Stewardship from 1:00 - 2:00 PM | [Webinar Registration Link](#)

Not an ASHP member or would like to learn more about penicillin allergy de-labeling? Healthcare providers should check out the [CDC resources on penicillin allergies](#).

## Wednesday, November 20: Human Health and Antimicrobial Resistance

Attend a webinar co-hosted by CDC and HRSA's Federal Office of Rural Health Policy: Implementation of Priority Core Elements in Critical Access Hospitals from 3:00 to 4:00 PM | [Webinar Registration Link](#)

- Individuals, parents, and caregivers can learn more about [antibiotic do's and don'ts](#) from CDC.
- Learn more about how doctors decide when to give antibiotics by checking out these new VDH resources:
  - Patient resources: [Why Didn't My Provider Prescribe Antibiotics?](#)
  - Provider resources: [Provider Tips for Facing Antibiotic Pressure](#)

## Thursday, November 21: Animal Health and Antimicrobial Resistance

Try to keep your animals and pets healthy by keeping up with your pet's vaccines, deworming, and flea and tick control. When your pet is sick, be sure to talk to your veterinarian about antimicrobial resistance and using antibiotics and antifungals only when needed to prevent risk to your pets. Learn more about how veterinarians decide when to give antibiotics by checking out these new VDH resources:

- Patient Resources: [Why Didn't My Vet Prescribe Antibiotics?](#)
- Provider Resources: [Vet Tips for Facing Antibiotic Pressure](#)

## Friday, November 22: Antimicrobial Resistance in Agriculture and Environment

[Learn how antimicrobial resistance can spread through the environment and in agriculture.](#) Healthcare professionals can also [listen](#) to the ASHP Podcast: Management of Community-acquired Pneumonia in Hospitalized Adults.

## Saturday, November 23: One Health Approach

Watch three short CDC videos to learn more about One Health:

1. [Humans and Animals Share Diseases](#)
2. [Animals Play an Important Role in Our Lives](#)
3. [Human, Animal, and Environmental Health are Linked](#)

## Sunday, November 24: Continuing the fight against Antimicrobial Resistance

Fighting antimicrobial resistance takes all of us and everyone can play a role. [Find out what actions you can take to fight antimicrobial resistance.](#)
