

# Education Coordinator Update

Abingdon, Virginia | December 7, 2024

***Office of Emergency Medical Services***  
Division of Accreditation, Certification & Education

# Housekeeping Rules

Silence/mute electronic devices.

Withhold the urge to visit Facebook, Instagram, Amazon.

Use tobacco products, smoking, vaping, etc. is only permitted in designated locations.

Breaks will be taken, but if nature calls, please feel free to step out.

If there's a fire walk calmly to the nearest exits, which you will see all around the room.

# Consultants

Fitch & Associates completed their report on the Office of EMS and the report is now available on Virginia Town Hall.

<https://townhall.virginia.gov>

# VDH Audit

VDH Internal Audit completed their report on the Office of EMS and the report is now available on Virginia Town Hall.

<https://townhall.virginia.gov>

# JLARC Study

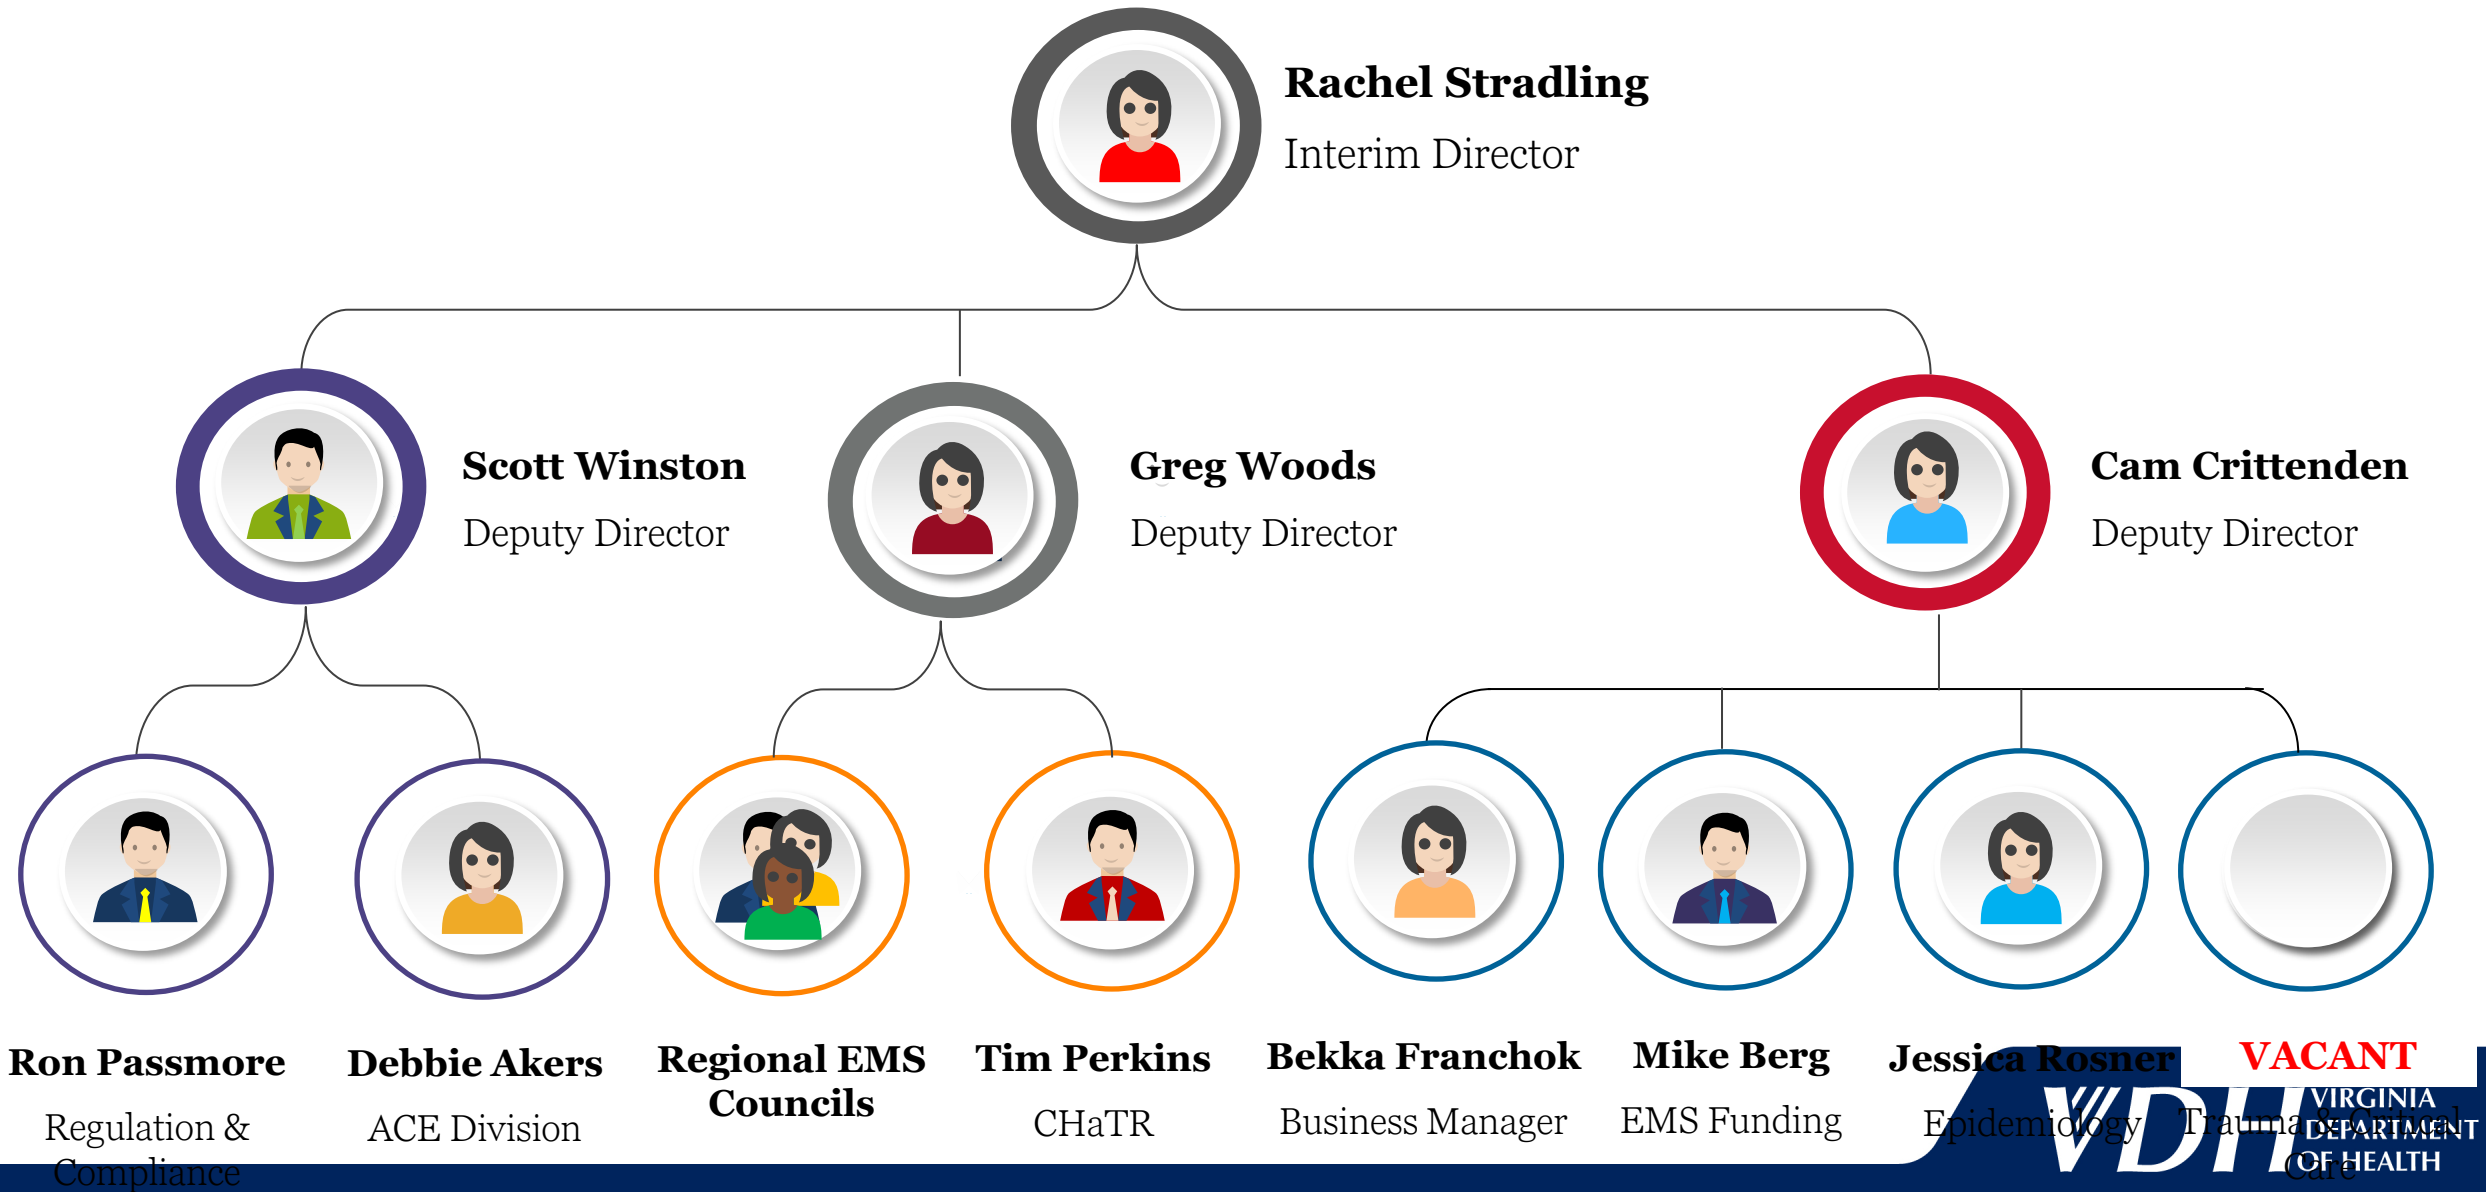

In 2023, the Joint Legislative Audit and Review Commission directed staff to review the operations and management of the Virginia Department of Health (VDH).

The report was released in November

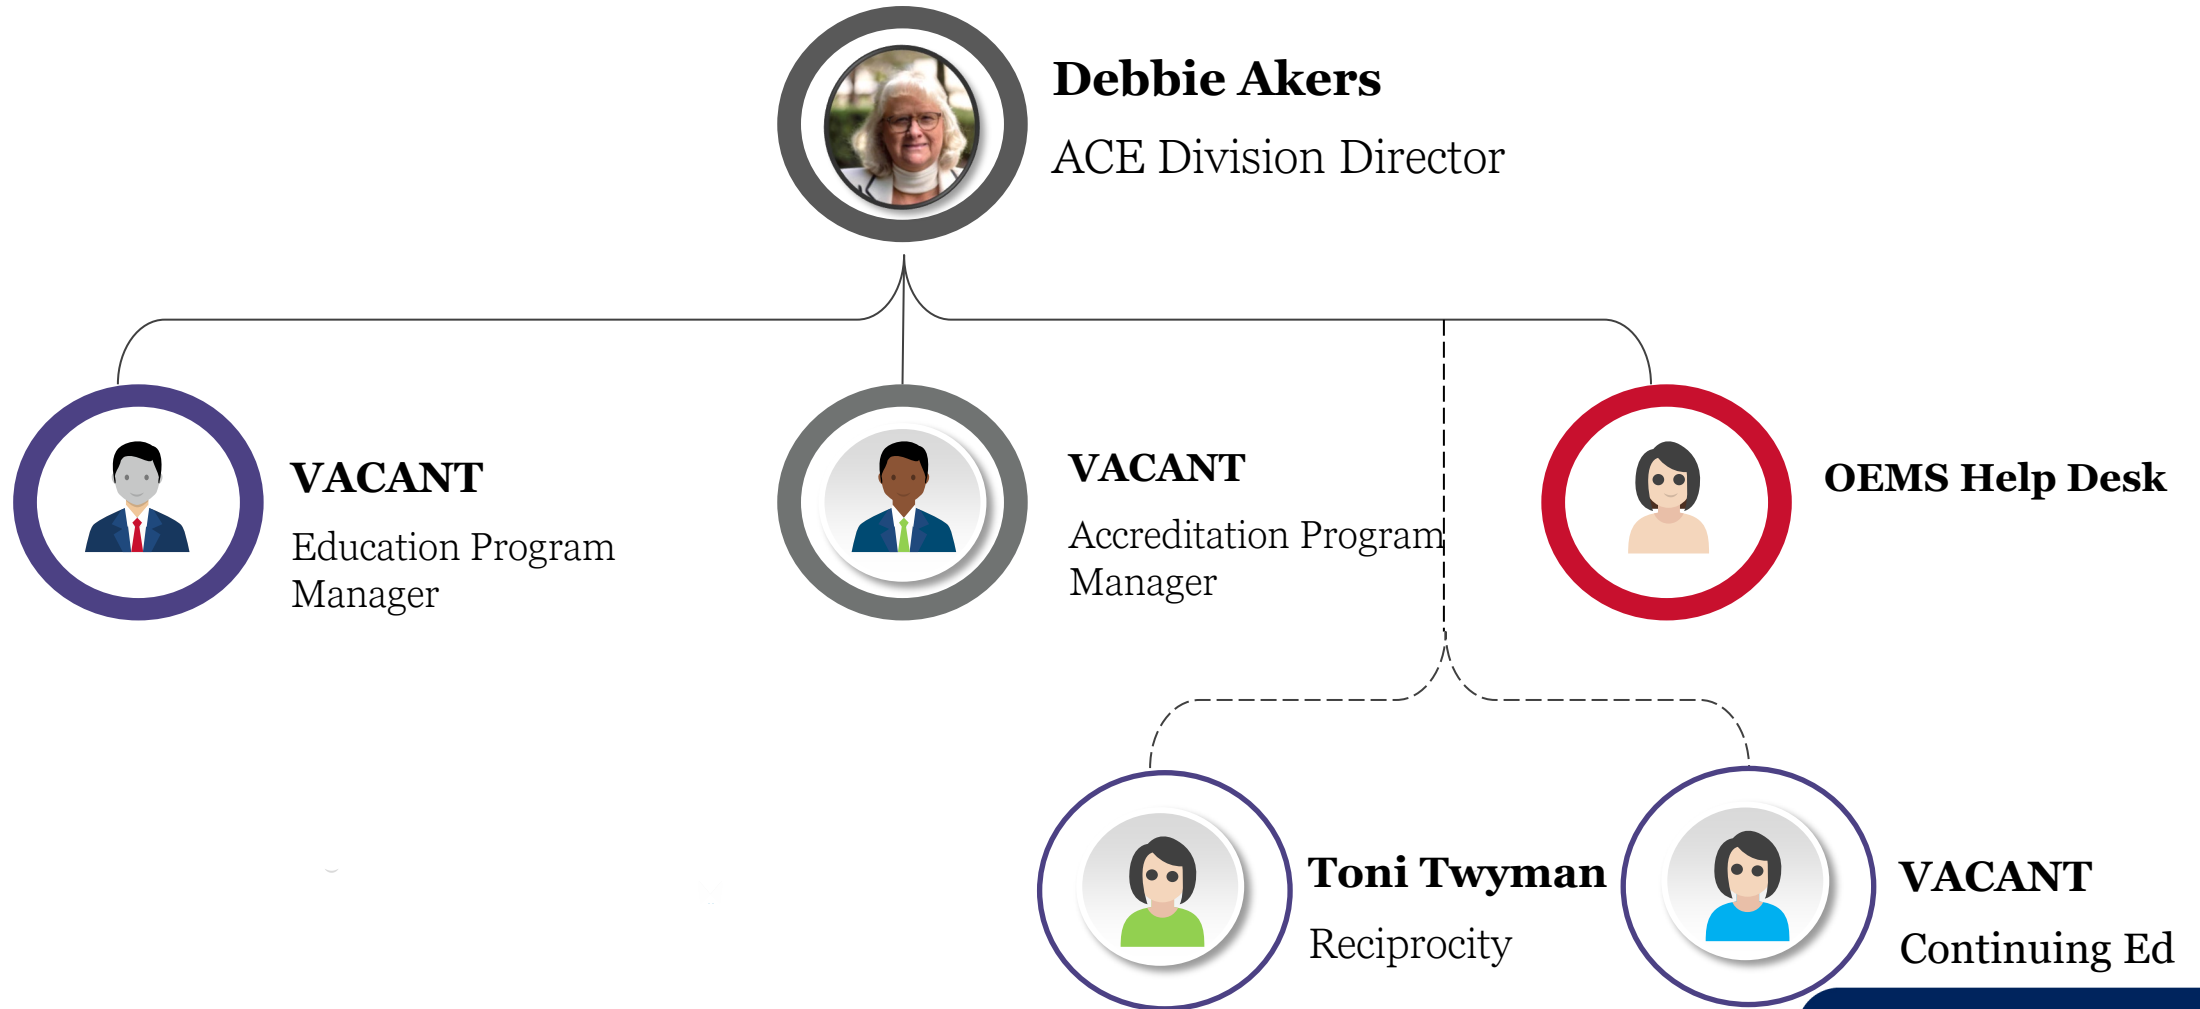

[JLARC Report on VDH](#)

# Emergency Operations Division Update

# Mass Casualty Incident Management I & II

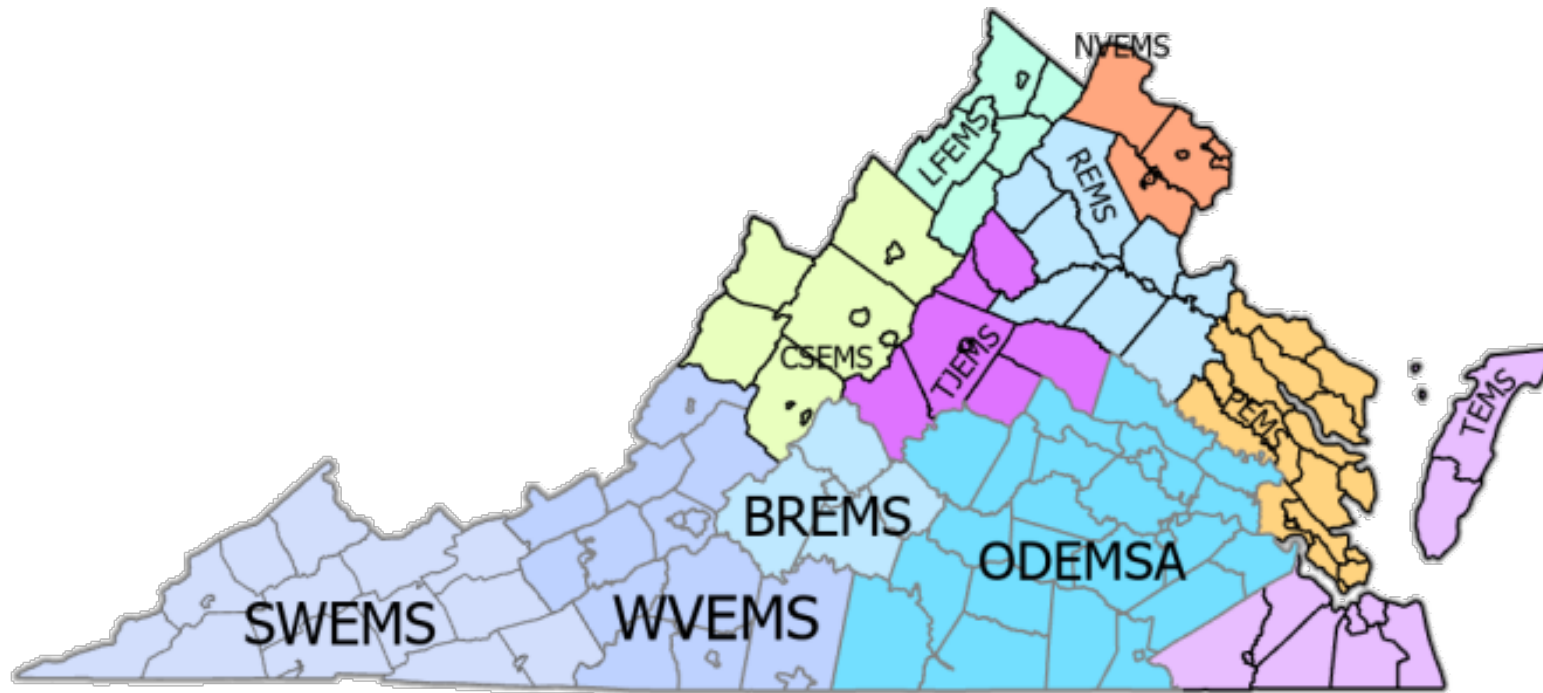

**Are you teaching Virginia's MCIM program  
in your EMT course?**

# MCIM Training Program Manager

**Sam Burnette**

- [samuel.burnette@vdh.virginia.gov](mailto:samuel.burnette@vdh.virginia.gov)
- [eopstraining@vdh.virginia.gov](mailto:eopstraining@vdh.virginia.gov)

**Please refer to your Regional EMS Council MCI Plan for any specific information related to mass casualty incident events**

# Two MCIM Courses Offered in Virginia

## MCIM Module I - Awareness

- Locating/Accounting for Patients*
- Conducting Patient Triage*
- Completing Agency Triage Tag*

## MCIM Module II - Operations

- Treatment/Transport Decisions
- Managing Resources
  - Providers/Personnel
  - Equipment
  - Units

# MCIM I Course Objectives

Define Mass Casualty Incident (MCI)

Define the three goals of mass casualty incident management

Define the three objectives of mass casualty incident management

Describe initial response actions at a mass casualty incident

Understand the START and SALT methods of pre-hospital patient triage

Understand the components and purpose of a Commonwealth of Virginia approved pre-hospital triage tag.

# MCIM I Skill Objectives

Demonstrate the ability to correctly triage simulated patients using the START triage method.

Demonstrate the ability to correctly triage simulated patients using the SALT triage method.

Demonstrate the ability to correctly complete a Virginia approved pre-hospital triage tag.

# MCIM II Course Objectives

Identify key roles in the Medical Branch / Group at an MCI event

Describe the duties and responsibilities of Triage, Treatment, and Transport Units

Describe the duties and responsibilities of the various positions within the Triage, Treatment, and Transport Units

# MCIM II Skill Objectives

Complete mass casualty incident management forms

Manage triage, treatment, and transport of simulated patients from the scene of an MCI to definitive care

# EC Requirements for Initial EMT Courses

- Deliver MCIM I – Awareness Level
- Contact Sam to get access to MCIM I materials on Moodle

# MCIM I Class Requirements

You will need:

- Minimum of (5) students
- Maximum of (30) students
- Copy of your agency's triage tags for each student
- Simulated patient cards or patients
- Triage tape

# VDH VIRGINIA DEPARTMENT OF HEALTH

**Cheyenne Dalton**

as evidence of satisfactory completion of the

**MASS CASUALTY INCIDENT MANAGEMENT  
MODULE I & MODULE II**

program requirements as prescribed by the Virginia Department of Health - Office of Emergency Medical Services.

In testimony whereof this certificate is awarded  
this 23<sup>rd</sup> day of August 2022

Gary Brown,  
Director  
Office of Emergency Medical Services

Course Number: 220823-590-43M

Sam Burnette,  
Emergency Services Coordinator  
Division of Emergency Operations

**START**

# Which System Do I Use: START of SALT

# Triage Tags---whew!!

There is no longer a requirement for agencies to purchase a specific, Office of EMS-approved tag to meet permitting requirements. If an agency chooses to utilize printed triage tags, they may purchase any commercially available tag that meets their needs or may purchase tags of their own design.

SCAN ME

# Summary

- EC can teach MCIM I, but cannot teach MCIM II unless they complete an MCIM TTT
- If you want your students to receive certificates of attendance, you must submit student registration forms and roster to MCIM Program Manager.
- Be familiar with and provide instruction on both START and SALT
- Train according to your regional/agency MCI plan

# Questions?

# National Registry Update

# National Registry Fee Increase

The fees for National Registry cognitive exams effective July 1, 2024:

- ❑ EMR: \$88
- ❑ EMT: \$104
- ❑ AEMT: \$144 ~~now~~ \$159
- ❑ Paramedic: \$160 ~~now~~ \$175

# National Registry Recertification Fees

Recertification Fees Remain the Same in 2024

Increasing on October 1, 2025 (except EMR)

Recertification Level	2024 Fee	2025 Fee	Increase	Effective Date
EMR	\$18	\$21	\$3	4/1/26
EMT	\$25	\$29	\$4	10/1/25
AEMT	\$26	\$30	\$4	10/1/25
Paramedic	\$32	\$37	\$5	10/1/25

# Recertification the Virginia way!

## 2025 Virginia Recertification Requirements

Virginia has adopted the new National Continued Competency Program (NCCP) model set forth by the National Registry of EMTs, with an effective date of October 1, 2023 for all certification levels. While maintaining the NCCP's framework, Virginia's approved plan provides customized details outlining standardized course equivalencies, credit allocations across topic domains, and maximum hours accepted for each course offering. [Click here for more information.>>](#)

# Continuing Education

# CAPCE Continuing Education Codes

There are various types of continuing education (CE) delivery methods/modes. In order to clearly delineate between the different methods, CAPCE has created a label for each method.

- F1
- F2
- F3
- F4
- F5

The following slides help further define the different CAPCE codes and different methods of delivering continuing education.

# F1: Live In-Person Continuing Education

Also considered “traditional” education. The only differentiating factor between F1 and F2 is whether or not the class you’re attending is required every year to recertify.

- A good example of an F1 class would be an in-person class you attend that details a not new topic in EMS.
- It may be a class you attend at a conference or a workshop you sign up for that really interests you.

## F2: Live In-Person Continuing Education (Continuous/Cyclical)

Is the course is required for you to recertify and maintain your certificate/license?

- A good example here would be CPR for the BLS Healthcare provider, or ACLS if you're an AEMT or Paramedic.

# F3: Online Distributive Continuing Education

This is the most common type of CE you'll find on the web. These are individual courses that are accessible via websites that provide CE hours after you've successfully passed an exam at the conclusion of the course.

These courses can be written, audio, or video.

- Depending on your EMT level, the NREMT allows a certain portion of your CE hours to be F3 distributive.
- In Virginia, this would be:
  - 24-7 EMS Now
  - CareerCert
  - Lexipol – EMS1 Academy
  - Prodigy
  - Distance CME
  - VectorSolutions
  - FoamFrat
  - FlightBridgeEd

## F4: Adaptive Learning

A course or program where students' actions, performance and choices guide the direction of learning activities, including virtual programs using adaptive learning technology and patient simulations. Equivalent to classroom instruction which helps advance EMS education and CPR training.

Example: Resuscitation Quality Improvement RQI and Heartcode 2025

# F5: Virtual Instructor-Led Training (VILT) Continuing Education

VILT continuing education courses are held on the web in a webinar-style environment. You are attending a course in real-time with an instructor at a scheduled time. Courses contain interactive polling questions which must be answered to show your proof of attendance.

There is a chat feature as well to interact with other attendees and ask questions throughout the class, share stories, and elaborate on learning objectives.

- In Virginia, these programs must meet the requirements outlined in OEMS document [Delivering High-Quality Instruction Online](#).

# Online CE Resources for Providers!

The screenshot displays a web browser window with the URL `vdh.virginia.gov`. The page is titled "CONTINUING EDUCATION RESOURCES" and features a navigation menu on the left with the following items: Office of Emergency Medical Services, Virginia Certification Verification, Stay Connected, Accreditation, Certification & Education, Administration & Finance, Community Health and Technical Resources, Emergency Operations, EMS & Trauma Data, Regulation & Compliance Enforcement, Trauma & Critical Care, OEMS Information, and Other EMS Programs and Links. The main content area includes a banner with a green sign that reads "CONTINUING EDUCATION Straight Ahead". Below the banner are three promotional tiles: "Free Continuing Education" featuring a chalkboard that says "Oh Yeah... IT'S FREE" and the Vector Solutions logo; "Online Continuing Education" featuring a computer monitor; and "Virtual Instructor-led Training" featuring a man in a suit holding a laptop. At the bottom of the page, the text "EMS & Fire" is partially visible.

# Virginia Continuing Education Levels

- **Provider Levels**

- Category 1 – Required – NCCR
  - NCCR - National Continued Competency Requirements
- Category 2 – ‘Flexible’ – LCCR/ICCR
  - LCCR - Local Continued Competency Requirements
  - ICCR – Individual Continued Competency Requirements
- ~~Category 3 – M~~ **ELIMINATED** ~~if~~

- **Educator Levels**

- Category 0 – F (Education Coordinator Admin Hours)
- Category 6 – F (Education Coordinator Teaching)
- Category 7 – H (EC Candidate – BLS Initial Training)
- Category 8 – H (EC Candidate – Other)

# Refresher Programs

Virginia does not offer or recognize “*Refresher*” programs for continuing education.

Virginia offers continuing education programs which meet the needs of recertification for EMS providers in the Commonwealth and the National Registry.

# National Registry's New Continuing Education

# National Registry

# National Registry Requirements

Virginia continuing education (CE) requirements mirror those of National Registry allowing for easy recertification of a provider's National Registry and Virginia certifications.

# BLS & ALS Recertification Requirements as of October 2023

## CE Requirements

- EMR – 16 hours
- EMT – 40 hours
- AEMT – 50 hours
- Intermediate – 55 hours
- Paramedic – 60 hours

Form: TR-64

- Cardiovascular
- Trauma
- Medical
- Operations

Specific examples of content that applies is coming up.

## Category 2

- 8 hours for EMR
- 20 hours for EMT
- 25 hours for AEMT
- 27 hours for Intermediate
- 30 hours for Paramedic

Specific examples of content that applies is coming up.

**But Wait,  
THERE'S  
MORE!**

# NREMT Changes to Continuing Education

# National Registry Has Changed Continuing Education

Continuing education requirements have been changed for the 2025 National Registry recertification cycle.

The National Continued Competency Program (NCCP) was constructed using methodology similar to that of the [American Board of Medical Specialties](#) requirements and streamlines the recertification process into three strategic categories

The National Continued Competency Program encourages Nationally Certified EMS personnel to pursue life-long education while also providing state and local agencies the freedom to customize continuing education to meet local operational needs.

# National Component Requirements

The national component of the NCCP constitutes 50% of the total recertification requirements. Topics included in the national reflect current trends in evidence-based medicine, scope of practice changes and position papers from numerous associations involved with EMS research.

- Expiration dates through **Sept. 30, 2025**
  - [Download the 2016 NCCP Model \(PDF\)](#)
- Expiration dates on or after **March 31, 2026**
  - [Download the 2025 NCCP Model \(PDF\)](#)

# Local Component Requirements

The local component constitutes 25% of the total recertification requirements. Specific topic requirements may be defined by your specific state, region or local agency. Examples of local content topics typically include state or local protocols, areas of specialization, or tasks that require additional focus based on QA/QI.

The local component allows national recertification requirements to be adapted to the needs of the state and local agencies. If your state, region, or local agency does not specify topics, the content is considered flexible.

# Individual Component Requirements

The individual constitutes 25% of the recertification requirements. Registrants are free to take any state or CAPCE approved EMS-related education.

Remember This Date

**October 1, 2023**

# BLS CE Changes – Ended Effective Sept. 30, 2023

# Clinical Judgement Domain

# AEMT & Paramedic Exam Updates

# Content for AEMT Exams

The 2019 National EMS Practice Analysis evaluated clinical impressions for the five areas, or “domains,” described above. These five domains are collectively referred to as the “cognitive domains”:

1. Airway, Respiration, & Ventilation
2. Cardiology & Resuscitation
3. Trauma
4. Medical, Obstetrics & Gynecology
5. EMS Operations

# Content Distribution for the AEMT

# Computer-Based Linear Testing

- ❑ The AEMT examination is administered as a fixed-length linear computer-based test (CBT).
- ❑ The same number of items are administered to all candidates, although the items are not identical.
- ❑ Candidates select their answer and can change it prior to advancing to the next item.
- ❑ After the answer is submitted, candidates are unable to return to the item to modify their answer.
- ❑ Candidates are encouraged to answer each item to the best of their ability before submitting their answer.
- ❑ All items left unanswered at the completion of the examination, which would only occur if the candidate does not complete the examination in the allotted time, are scored as incorrect.

# Advanced EMT Exam Details

## Examination Length

- The examination is administered in Pearson VUE testing centers.
- Consists of:
  - 100 scored items
  - 35 unscored pilot items
    - These items are included in the examination for purposes of collecting data to determine if the quality of the question meets the requirements to move forward.
- 3 hours

# Item Types

Certification Examination includes a variety of item types. All items are scored dichotomously; that is, candidates receive full credit for a correct response. No credit is provided for a partially correct response.

These item types are described below:

- **Multiple Choice:** Candidates must select one correct response out of four possible options.
- **Multiple Response:** Candidates must select two or three correct responses out of five or six possible options.
- **Build List:** Candidates must position several presented options into the order specified in the item instructions.

# Item Types (cont)

Additional item types include:

- **Drag-and-Drop:** Candidates must position several presented options into certain categories, classifications, or other identifiers as specified in the item instructions.
- **Options Box:** Candidates must classify, categorize, or identify several options presented in a table based on certain specified criteria.
- **Graphical:** Candidates must use information provided in graphical form to answer the item. Examples of the graphics presented include charts, capnography rhythm strips, images, and pictures. Graphics may be included in any of the above item types.
- **Scenario-Based:** Candidates answer multiple questions based on information contained in a “scenario” or reading passage. Scenario-based items may be any of the above types.

# Scenario Based Item

En Route

**Scene**

Post Scene

The patient (60 kilograms) is sitting awake in a dental suite. The patient says: "Just leave me alone now! Get away from me." The office staff states that the patient reported feeling weak upon arrival for the appointment, and then became confused. The patient had been instructed to start fasting at midnight for a dental procedure today.

The patient has a history of seizures, diabetes, hyperlipidemia, and recently, dental pain. Medications include insulin that is being administered by an automated external pump, carbamazepine, hydrocodone/acetaminophen, and atorvastatin. The patient has no allergies to medications.

The patient's skin is diaphoretic, and there are no signs of trauma. The patient obeys motor commands and moves all extremities. The patient cannot give their name, location, or the date. The eyes are open, and the pupils are 5 mm and reactive. Breath sounds are clear bilaterally. The vital signs are BP 156/90, P 124, R 10, SpO<sub>2</sub> 95% on room air, and T 98°F (37°C). The blood glucose level is 47 mg/dL. The EtCO<sub>2</sub> is 40 mmHg.

## Scene

Which of the following findings most strongly suggest a differential diagnosis of a diabetic emergency? Select the two answer options that are correct.

- A. End tidal carbon dioxide value
- B. Medical history
- C. Mental status
- D. Respiratory rate
- E. Pulse oximetry

# Drag and Drop

## Scene

Based on the patient findings, what is the most probable medical emergency, and what is the most appropriate treatment for that emergency? Move the most probable emergency into the **Answer Area**, and then move the most appropriate treatment into the **Answer Area**.

### Medical emergencies

Opioid overdose

Hypoglycemia

Hypoxia

### Treatments

Administering a dextrose solution

Administering intranasal naloxone

Administering high-flow oxygen

### Answer Area

Most probable medical emergency

Most appropriate treatment

# Build a List

## Post Scene

What conditions are likely to explain the patient's continued signs and symptoms despite appropriate treatment? Move each option into the **Answer Area** to order the conditions from the most likely to least likely explanations of the continued signs and symptoms.

### Options

Seizure

Diabetic emergency

Respiratory distress

### Answer Area

*Most likely (1) to least likely (3) explanations*

# Options Box

## Post Scene

Suppose the AEMT performs a reassessment. Which of the potential changes to the patient's presentation listed below would indicate that the patient's condition is improving, and which changes would indicate the patient's condition is worsening? Select two changes that would indicate that the condition is improving and select two changes that would indicate the condition is worsening.

## Answer Area

	<i>Condition improving (select 2 options only)</i>	<i>Condition worsening (select 2 options only)</i>
<i>Heart rate increases to 140</i>	<input type="radio"/>	<input type="radio"/>
<i>Patient starts to follow commands</i>	<input type="radio"/>	<input type="radio"/>
<i>Skin becomes dry</i>	<input type="radio"/>	<input type="radio"/>
<i>Tonic-clonic activity is observed</i>	<input type="radio"/>	<input type="radio"/>

# Content for Paramedic Exams

The 2019 National EMS Practice Analysis evaluated clinical impressions for the five areas, or “domains,” described above. These five domains are collectively referred to as the “cognitive domains”:

1. Airway, Respiration, & Ventilation
2. Cardiology & Resuscitation
3. Trauma
4. Medical, Obstetrics & Gynecology
5. EMS Operations

# Content Distribution for Paramedic

# Computerized Adaptive Testing

- ❑ **Computerized Adaptive Testing (CAT):**  
The Paramedic Certification Examination is administered through a CAT format.
- ❑ After an initial set of items, the computer will begin to administer items that are targeted at or above the candidate's estimated level of ability.
- ❑ Because the computer delivers items that are more aligned with the candidate's level of understanding, it can determine candidate proficiency in a fewer number of items in many cases.
- ❑ If the computer can make a pass/fail determination in the minimum number of items with 95% confidence, the test administration will end.
- ❑ **Examination Length:** Candidates have 3.5 hours to complete the Paramedic Certification Examination. The examination is administered in Pearson VUE testing centers. Candidates will be required to answer a minimum of 110 items.
- ❑ **Unscored Content:** The examination includes 20 unscored pilot items. These items are included in the examination for purposes of collecting data to determine if the quality of the question meets the requirements to move 6 forward on a future examination as a scored item. These items are not identified and will not affect a candidate's score.

# Paramedic Exam Details

## Examination Length

- The examination is administered in Pearson VUE testing centers.
- Consists of:
  - scored items
  - Minimum of 110 questions and maximum of 150
  - 20 unscored pilot items
    - These items are included in the examination for purposes of collecting data to determine if the quality of the question meets the requirements to move forward as a scored item.
- 3.5 hours

# Approving Enrollment Applications

## 12VAC5-31-1431. Student course enrollment.

Over the past year, the ACE Division staff have experienced an increase in the number of EC's who either:

1. do not have have their students enroll in their initial certification programs, or,
2. who are not approving student enrollments in the EMS Portal per regulations.

Pending

✓ Approve  
Pending  
Deny

# Regulation in Question

## **12VAC5-31-1431. Student course enrollment.**

*For courses leading to certification at a new or higher level, the EMT instructor, ALS coordinator, or EMS education coordinator shall have each student complete a "Virginia EMS Training Program Enrollment" form at the first meeting of the course.*

- 1. These forms must be reviewed by the EMT instructor, ALS coordinator, or EMS education coordinator and submitted to the Office of EMS **no later than five business days following the first meeting of the course.***
- 2. Any student who starts the program at a later date shall complete an enrollment form the first date of attendance providing 15% or more of the entire course has not been completed.*

*Statutory Authority*

*§ § 32.1-12 and 32.1-111.4 of the Code of Virginia.*

# Policy Change

The following policy went into effect on January 1, 2024.

- Any student who has not submitted their enrollment application within five business days will be required to contact the Division of Accreditation, Certification and Education with a valid explanation as to why this was not completed within the required five business days.

# 30-days to Approve Enrollments

As of January 1, 2024, the only enrollments that may be accepted during business days 6-30 are those where the student was late enrolling in the course.

In this case, the Education Coordinator has five business days following the receipt of the late enrollment to accept the student into your class.

For anyone enrolling outside of the 30-day enrollment window, the Educator shall contact Debbie Akers to have the enrollment approved. Violations of this policy will result in an administrative action email from the ACE Division. Any further violations will result in an investigation by the Division of Regulation and Compliance.

# Marking BLS Students as Pass in the EMS Portal

# Marking Student Completions

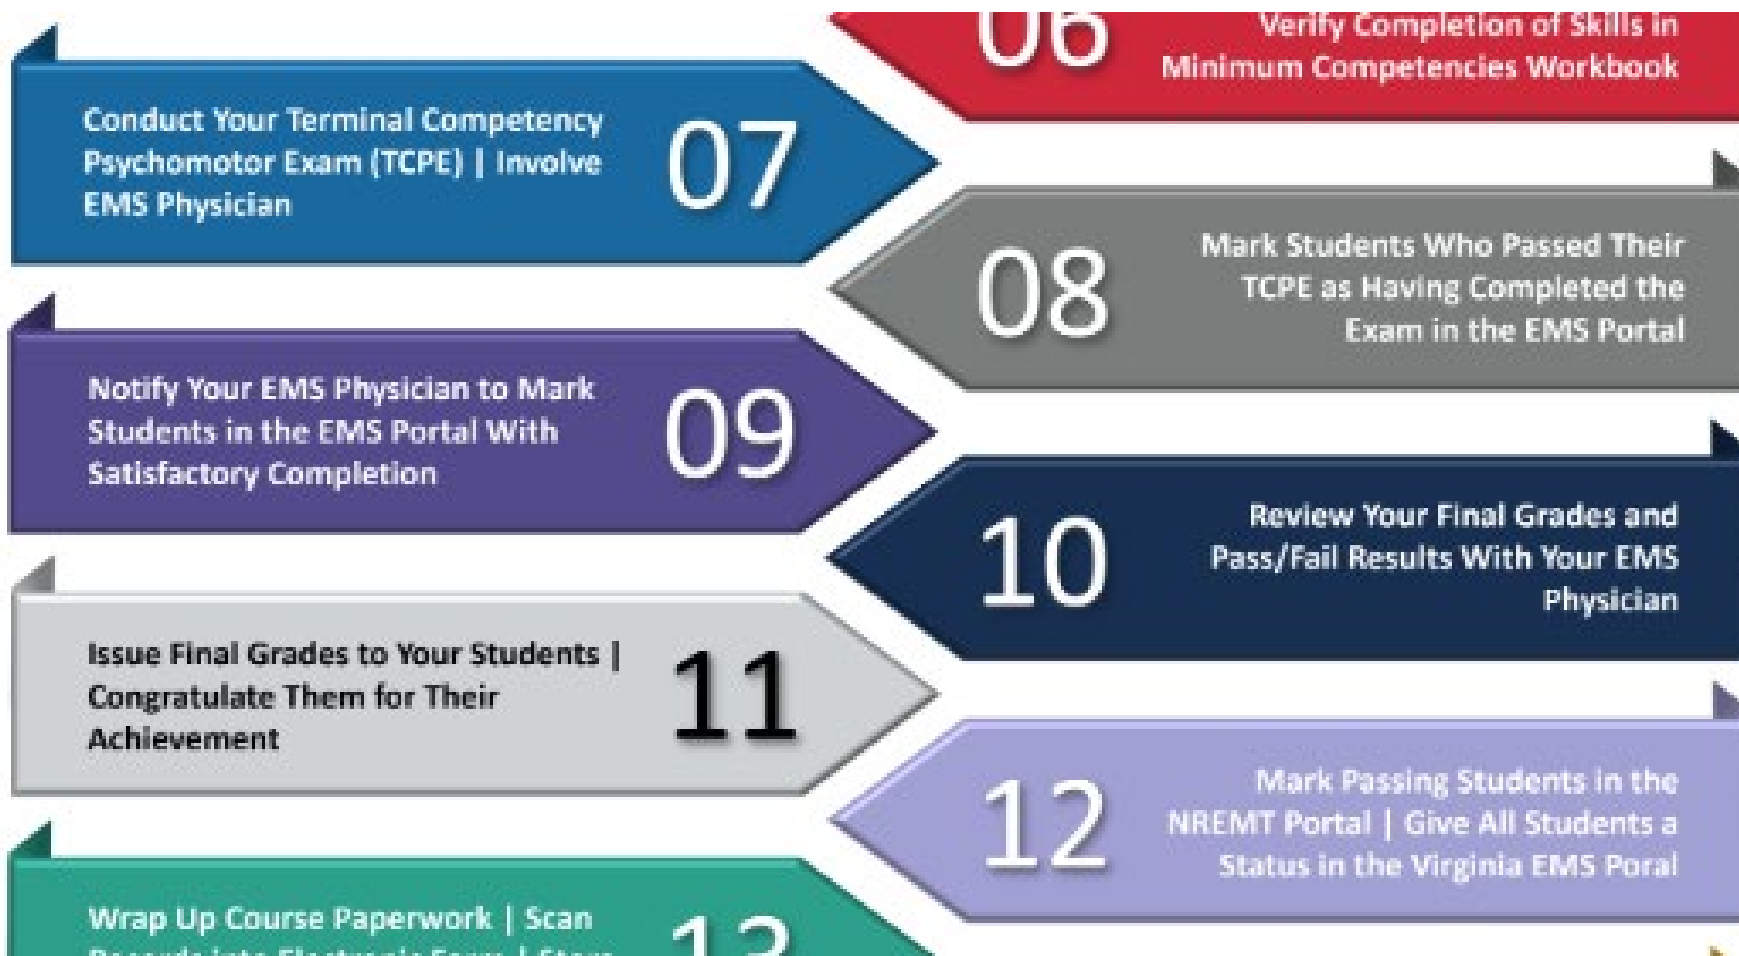

We cannot place enough emphasis on the fact that you are:

- **REQUIRED** to have your students enroll in your initial certification courses, and;
- **REQUIRED** to mark your students' disposition at the end date of your course.

# Marking Course Completions

**National Registry of  
Emergency Medical Technicians®**  
THE NATION'S EMS CERTIFICATION™

# National Registry Application

## Application Changes

- Certification candidates will now use a single application for all their examination attempts.
  - New attestation and payment for each attempt
  - Applications for Proficiency Evaluations will continue to be 1 attempt per application
- Candidates will have a streamlined user experience process to follow, guiding them step by step from application start until Certification is achieved.
- Candidates can reschedule their next examination attempt as soon as their failed results post.
  - The ATT letter date will start 15 days out.
- Candidates will use Single Sign-On from our website to schedule with Pearson VUE

# Manage Students – National Registry

## Manage Students

- Program Directors may verify BLS Practical Skills and Course Completion independently or at the same time
- Students will appear on the “Manage Students” page once they have submitted their first attempt for initial Certification.
  - BLS Students will remain in the list until both Practical Skills and Course Completion have been verified
  - ALS Students do not require Practical Skills verification

# Questions?

# Maintaining Your Education Coordinator

Maintain provider certification

Teach a *minimum* of 50 hours per certification cycle (3 years)

Attend a *minimum* of 1 update per certification cycle (3 years)

Re-endorsement by EMS Physician (online) (valid for 180 days)

Complete recertification quiz (online)

- *If it expires – re-entry is 2 years*
- Certification is not tied to provider expiration

**THANK YOU**

A yellow speech bubble with rounded corners and a tail pointing towards the bottom right. The words "THANK YOU" are cut out of the bubble in a bold, blue, sans-serif font. The background is a solid, textured blue color.
