Community Healthcare Coalition Greater Prince William

Bilingual speakers encouraged to apply

We are looking for community members to lead conversations in the community!

The Community Healthcare Coalition of Greater Prince William (CHCGPW) is working on a [community health assessment \(CHA\)](#) to learn about the health of our community. Information is collected about what health problems are affecting community members, what services are available, and what needs to improve. We get this information from health data, surveys, and community conversations. By having community members tell us what they need, we can work to create programs and services that make our community healthier.

Position Details

Position	Volunteer Community Liaison who leads a community conversation in English, Arabic, Dari, Farsi, Spanish or Urdu
